

**Daniel D. Zimmerman M.D.**  
Vice President and Medical Director  
**RGA Reinsurance Company**

Daniel D. Zimmerman, M.D., is Vice President and Medical Director of RGA Reinsurance Company and a member of RGA's Global Support Team. He is responsible for case consultation, product development, internal and external education, client support, and representing RGA to key industry professional organizations.

Daniel is also currently Managing Director of The Longer Life Foundation (LLF), the not-for-profit partnership between RGA and Washington University School of Medicine that funds clinical research into lifestyle, environmental and genetic factors that impact mortality and morbidity.

Prior to joining RGA in 2014, Daniel spent eight years as a medical director with Northwestern Mutual Life Insurance Company. He also was a member of LLF's scientific advisory committee. Previously, he practiced primary care internal medicine and pediatrics in Tampa, Florida.

Daniel received both his medical degree and a Bachelor of Science degree in molecular biology and medical microbiology from the University of Wisconsin – Madison, and completed his formal training in both internal medicine and pediatrics at the University of Minnesota. He has held leadership positions with the American Council of Life Insurers (ACLI), participated in program committees of the American Academy of Insurance Medicine (AAIM), frequently represents RGA to key industry professional organizations, and has contributed several articles to the Journal of Insurance Medicine. He maintains board certifications from the American Board of Internal Medicine (ABIM), the American Board of Pediatrics, and the AAIM.
